Soil and Plant Science Division General Review Committee Chair

---

Soil and Plant Science Division Director

---

Soil Science and Resource Assessment Deputy Chief

*\*Mandatory for documents from authors whose supervisor is not a Regional Director or National Leader. Please read the directions for clarification on what signatures are needed. Contact John Andreoni ([john.andreoni@usda.gov](mailto:john.andreoni@usda.gov)) if you have any questions.*

## Directions

The document review process of the Soil and Plant Science Division assesses public-facing documents for sound science, novel contribution to understanding, and support for Agency and Division missions. The process includes a review for compliance with USDA policies but is not a substitute for review by the External Affairs Division. Please contact your supervisor or the SPSP Document Review Coordinator for more information on USDA policies.

## Author's Responsibilities

1. Follow all policies for development of the publication, including quality control, quality assurance, and supervisory concurrence.
2. Fill out the SPSP Internal Review Certificate.
  - a. Enter the document title.
  - b. Enter the name of the primary SPSP author. If the content has more than one author, enter the SPSP point-of-contact author.
  - c. If the document is part of a larger publication, such as a journal or book, enter the name of the larger publication.
  - d. If the SPSP approval process must be completed to meet a specific deadline, enter the deadline.
  - e. If the content is in the "Scientific Manuscripts" category, the author must arrange for peer-review, acquire **at least two** signed peer-review forms, and complete Author's Response form if needed. Peer reviewers need not be agency employees but must be approved by the National Leader for Research.
3. If required, contact [NSSC-Editors@usda.gov](mailto:NSSC-Editors@usda.gov) to arrange for an English edit.
4. Submit the final content and all forms to the SPSP Document Review Coordinator.

## Signatures Required on SPSP Publication Review Certificate

(The Document Review Coordinator will route for signatures. Individuals who fill more than one role should sign for each relevant role. Maximum expected review times are listed.)

	Publication Type				
	PowerPoint, Poster, Short Articles (7 working days)	Abstracts, Maps, and Other (7 working days)	ESDs (3 months)	Scientific manuscripts (3 months)	TSS Reports, Factsheets, Technical Notes, Soil Surveys, Soil Interpretations
